

How to Use: Chatbot Tip Submit

Vector LiveSafe is excited to announce a new way to report safety and security incidents – **Chatbot Tip Submit!** Chatbot Tip Submit allows you to report a tip to security and have a conversation in real time to provide additional information, all while remaining anonymous if you choose.

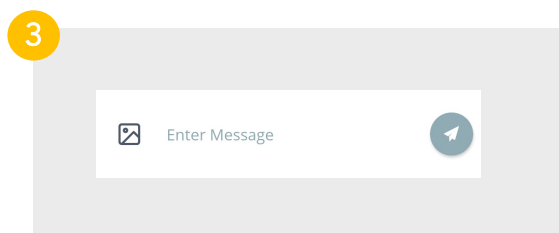

On the Vector LiveSafe home screen, tap "Chatbot Tip Submit."

To send the tip without your name or contact information, tap the "Anonymous" slider.

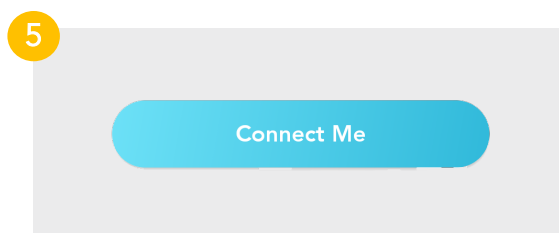

Not sure what to report? Tap "What Can I Report?" to see the possible tip types for your organization.

Enter in the information you want to share. Add as many images or videos as you'd like.

The chatbot will suggest label choices based on the information you entered.

Once you confirm or make final edits to the information you entered, tap "Connect Me." Your tip is automatically sent to the right people within your organization. You can start a chat to share more info or return home.
