

From safety hazards to mental health concerns, "Report Tip" allows you to proactively report safety and security incidents so they are routed to the right people who can respond appropriately.

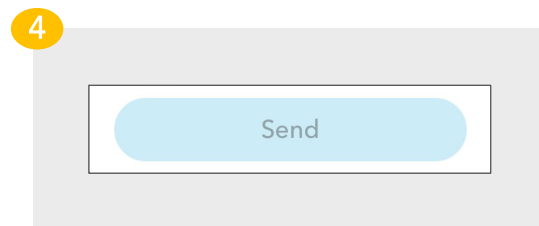

1 On the LiveSafe home screen, tap "Report Tip" (the button with the plus icon) and select the tip type you want to submit to your organization.

2 Enter the information you want to share. Add photos, video clips, or audio files by tapping on the corresponding icon.

3 To send the tip without your name or contact information, tap the "Send anonymously" slider.

4 Tap "Send." Your tip is automatically sent to the right people within your organization. You can start a chat to share more info or return home.
