

How to Use: Create an Account on the Web

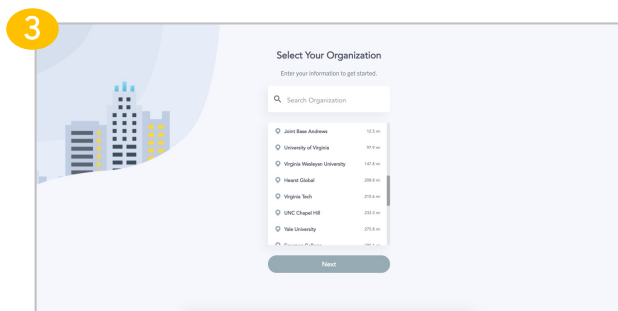

Web Tip Submit gives you the same reliable and easy-to-use reporting capabilities from your laptop or computer! To access Vector LiveSafe's new way to report safety and security incidents, follow our guide below to create an account:

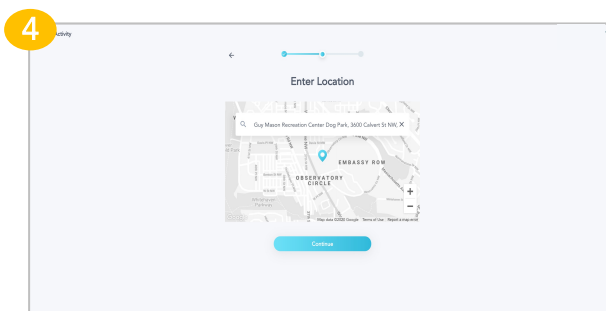

Navigate to <https://tips.livesafemobile.com>. Select "Create New Account" to set up your new Vector LiveSafe account.

Enter your email address and select "Next." You will receive a confirmation email. Follow the instructions to set up your profile.

Select your organization from the list. Your organization may have multiple communities so choose the community you belong to.

Your browser will ask for your permission to obtain your location. Allowing the browser to access your location will help security better respond to your tip.
